

# X-Effects® LED Lens Cover

## Installation Instructions

### MATERIALS NEEDED:

1. Rosco X-Effects LED Lens Cover (Part No. 297000000020)
2. Rosco X-Effects LED Lens: 19°, 30°, 50°, or 70°

### INSTALLATION STEPS:

1. Remove Lens from the X-Effects LED Projector or from its original packaging.
2. Clean all dust or debris from both the Lens and Lens Cover.
3. Ensure the O-ring is in place around the edge of the Lens Cover. (See Figure 1)
4. Place Lens Cover on the top of the Lens and turn in clockwise motion until the cover is hand-tightened. Stop when there is resistance\*. (See Figure 2)

Figure 1

Figure 2

Figure 3

\*If over-tightened, the O-ring will begin to protrude, and the Lens will not be sealed. If this happens, unscrew the Lens Cover and repeat steps 3 & 4. (Figure 3 shows an over-tightened Lens Cover.)
